## Essential Column Practice Backstop

An innovative new economical backboard system designed to mount a 3/4 size fan-shaped backboard and ring onto an exposed flange of a straight column or sloped rigid frame. Ideal as a training, shooting or practice backstop on the side of the main court or for junior players in multi purpose halls.

Like the international FIBA systems, this has the "direct mount" design where the goal bolts through the backboard onto the support structure.

- Will mount onto any column up to 380mm wide and maximum of 12 degrees or 1:4.5 slope.
- 250mm projection.
- Standard 3/4 size Essential High Tensile moulded fibreglass backboard finished in a hard wearing gel coat.
- Standard essential fixed goal and net.
- Can be mounted at any height.
- Can be upgraded with our AAG height adjustor systems so then you can change the ring height from senior to junior heights and anywhere in between.

<b>System:</b>	Basketball
<b>Product Code:</b>	BB-ESCP
<b>Related Product:</b>	BB-ESR, BB-ESW, BB-STR, BB-STW
