

NBRES - ESSENTIALS NETBALL POSTS

A cost effective, heavy duty system, the Essentials Post system sets a new standard for Netball posts.

- Now utilising a 76mm diameter round steel upright for increased strength over other systems in exposed environments.
- Posts are then Hot Dip Galvanised for ultimate rust resistance, and then finished with an additional white powder coat layer for added protection, visibility and good looks.
- Goals are Netball Australia compliant, without bracing from goal ring to post.
- Regulation size goal is made from a rolled 18mm solid steel bar (not hollow tube).
- New net attachment system for enhanced durability and safety.
- The goals are bolted to the post into internal nuts eliminating dangerous bolts protruding behind the goal.
- Includes our exclusive wedge-lock post & sleeve design, developed by engineers to eliminate the movement of post when in the sleeve.
- Can be installed with optional sleeves and caps, or post can be concreted directly into the ground.
- Posts can be cut down on site for Netta/junior netball height.
- Optional post padding is also available.

Goals are Netball Australia compliant, without bracing from goal ring to post.
