

EQUIPMENT SAFETY AUDIT

Regular Safety Audits are critical for all facilities to protect users and ensure the continued efficient operation of sports equipment systems.

With time and usage, all sports equipment systems naturally degrade. Parts may wear down or become loose, bolts loosen, and rust or corrosion may occur. Like all machinery, sports equipment needs routine inspection and maintenance to stay safe and functional.

HiTech Sports offers comprehensive safety audits for both our installations and existing equipment, including basketball towers, dividing curtains, goal posts, and more. If your equipment hasn't been inspected recently or if you don't have a service provider, we're here to help.

Safety is our top priority, and we've seen firsthand the risks of poorly maintained equipment. Our experienced, accredited technicians can conduct a thorough inspection and provide a detailed report.
