ESSENTIALS DIVIDING CURTAIN

MODEL
CURT-ES

The HiTech Sports Essentials dividing curtain is a "traditional" style system, but with many improvements designed to increase the durability and reduce the maintenance requirements.

- These curtains mount on purlins or structural members without requiring a specific beam.
- Each unit comes with a key-operated electric motor featuring adjustable height limit settings.
- Constructed from heavy-duty, mildew-resistant ripstop vinyl with a vinyl-coated mesh for the transparent section, both materials are fire-rated to AS/NZS 1530..3-1999 and are available in a variety of colours.
- Pickup cables are made from aircraft-grade steel, ensuring they do not stretch or easily cut unlike nylon cords.
- Features a simplified line shaft retraction system, eliminating complex cable runs and reducing reliance on high-performance pulleys.
- Includes padded lower pocket for added protection.

Check out the online video for full demonstration of this system.
