HiTECHSPORTS pty ltd

ESSENTIALS ROOF MOUNTED BACKSTOP

MODEL
BBESR

- Supplied standard with electric winches
- Triangular mast support for resistance to sway
- A mounting height of up to 9m on standard systems (higher systems can be customised)
- Direct mount goal connection to centre mast providing complete structural strength

- Can fold forwards, backwards or sideways to suit any space
- Includes mechanical locking arm to hold system in position (not gravity reliant)
- Engineered to allow flexibility in installation and a quality product at a lower cost
- Full size 50mm reinforced fibreglass backboard for improved strength and ball rebound

- FIBA level 3 certified for use in international competition and Education QLD Basketball specifications.
- Designed for use in schools, recreation and community centres
- Check the online video for full demonstration of this system
- Upgrades such as spring loaded rings, backboard padding, height adjustment systems, safety straps are also available

⚠ Please note custom configurations require longer lead times and additional costs and all installations require structural steel beams to already be in place.
