

JAM BASKETBALL SYSTEM

A premium basketball backstop perfect for home and primary school use. This system is robust, adjusts in height and has the optional upgrade to add a netball ring for a double use post.

- Backboard includes target square and lines so you can “play like the pros”.
- Optional netball ring for reversible operation.
- 1200 x 900mm transparent backboard.
- Variable height 3050-2600mm.
- 90mm heavy duty steel upright.
- Supplied with ground sleeve as standard.
- Powder coated finish.
- Specially formed arms for maximum strength.
- 630 mm clearance between post and backboard at full height.
- Flat pack design for ease of transport and lower cost outlay.

Full size backboard and safety padding kit upgrades available on request.

Other models also available in this range are the **DOMINATOR**, the **ULTRA** and the **PRO**.
