Indoor Multi Sport Scoreboard "Model MSA 210.300"

TUV & DIN 18032-3 Ball Impact Resistance

Scoreboards have a plexiglass front cover and have been tested and certified to the DIN 18032-3 standards for ball impact resistance.

Ease of Access

Scoreboards have easy front access to all internal workings.

SMD LED's

SMD LED technology used for maximum energy efficiency. Digits have up to 338 diodes for a brighter display, and 170° viewing. SMD LED's retain brightness longer than older LED's and have a 10 year warranty.

Self-Diagnostics

Fitted with dual self-diagnostic technology to scan for system health to protect the longevity of the scoreboard, and lower maintenance costs in the years to come.

Horn

Systems use a 120 dB horn with 20 second auto cut out for burnout protection.

Easy Software Update

Software can be easily uploaded without the need for a technician, or return to the factory. Rules can be updated with no down time.

Wireless Connectivity

Wireless operation to reduce installation costs and wire damage issues.

Nautronic is ISO 9001 Quality Assured
