## NAUTRONIC FEATURES

### Naucon 1000 Controller

A revolutionary innovation specifically developed for Nautronic's latest generation scoreboards to make them easier to operate and maintain.

- 5.7" colour touch screen
- Self-test on start and quick operation speeds.
- Self diagnostic software
- Ability to export game results by USB

Indoor Multi Sport Scoreboard "Model MSA 210.300"

### TUV & DIN 18032-3 Ball Impact Resistance

Scoreboards have a plexiglass front cover and have been tested and certified to the DIN 18032-3 standards for ball impact resistance.

### Ease of Access

Scoreboards have easy front access to all internal workings.

### SMD LED's

SMD LED technology used for maximum energy efficiency. Digits have up to 338 diodes for a brighter display, and 170° viewing. SMD LED's retain brightness longer than older LED's and have a 10 year warranty.

### Self-Diagnostics

Fitted with dual self-diagnostic technology to scan for system health to protect the longevity of the scoreboard, and lower maintenance costs in the years to come.

### Horn

Systems use a 120 dB horn with 20 second auto cut out for burnout protection.

### Easy Software Update

Software can be easily uploaded without the need for a technician, or return to the factory. Rules can be updated with no down time.

### Wireless Connectivity

Wireless operation to reduce installation costs and wire damage issues.

### Nautronic is ISO 9001 Quality Assured
