TOUCH SCREEN SYSTEM CONTROLLER

MODEL
TSC1500XL

Easily manage all your venue's equipment from one central touch screen.

The **TSC1500XL Group Controller** streamlines setup across multiple courts, saving time, eliminating key switches, and keeping your facility running smoothly.

With this intuitive device, operators can control basketball backstops, height adjusters, dividing curtains, Skymaster volleyball systems, and more - all at the touch of a button. Effortlessly convert play areas to accommodate different sports and programs in seconds.

- A 5.7" touch screen with equipment layout display
- One-touch operation for multiple devices
- Eliminates all key switches from around your venue, no keys are required
- System is password protected
- Control devices individually or simultaneously (up to 192 devices)
- "Press and hold" safety function ensures operator supervision
- Manual override backup via wired relay controller
- Also available: **TSC1500WIFI** for full control via smartphone or tablet
