

SCOREPAD CONTROLLER

The latest in high performance scoring consoles allows a wide range of customisation and adjustment.

Add logos and colours of teams and broadcast to multiple boards and screens.

Enter team and player names, import into controller and export at the end of games.

Choose from an ever-expanding range of sports, currently in excess of 24, and upload free software updates via USB as rules change.

Scorepad data can be displayed on compatible video screens.

Sports include:
