

## BASKETBALL TOUCH SCREEN SYSTEM CONTROLLER

**Easily control all venue equipment movement with one convenient touch screen system.**

The **TSC1500XL** Group Controller gives the ability to manage multiple courts conveniently and efficiently, keeping your facility's daily programs running smoothly. This innovative device eliminates the hassle of keeping track of multiple keys, and prevents wasted time setting up each device individually. The touch screen operated **TSC1500XL** allows for easy conversion of a play area to accommodate multiple sporting events.

- A 5.7" touch screen shows the equipment layout for each court and any desired scenario of operation.
- Allows one touch operation of basketball backstops, backboard height adjusters, dividing curtains, Skymaster volleyball systems, and more.
- **Eliminates all key switches** from around your venue, no keys are required.
- The system is password protected.
- Each device can be operated individually or simultaneously in any direction up or down.
- Can control 12 devices expandable up to a maximum of 192 devices.
- "Press and hold" button feature prevents operator from walking away while equipment is in motion.
- Includes manual override backup with wired controller used at relay box.

**TSC1500WIFI model also available allowing full control via an app on your smart phone or tablet. Check the [online video](#) for a full demonstration.**
