

## ESSENTIALS HEAVY DUTY BASKETBALL

### Affordable Safety, Strength & Stability

Our BB18 Essentials Basketball System is designed for every day heavy duty environments such as schools and public parks. A cost effective system, engineered to provide maximum strength, outstanding durability, and certified for cyclone conditions.

- Strong oversized 141mm hot dipped galvanised post.
- 50mm fibreglass backboard has a bolt free face which delivers excellent, consistent ball rebound that cannot be achieved on wooden backboards.
- Fully ribbed reinforced fibreglass backboard design for maximum strength will not rot or delaminate over time and features a heavy steel plate for ring support.
- Supplied with heavy duty dual rim design goal ring with wrap around bracing and milled net holders.
- Simple direct burial and bolt together installation.
- Comes standard with 1800mm projection into the court. *1200mm **BB12** and 2400mm **BB24** projections also available.*
- Independently tested for strength and manufacture quality.
- Flat pack design for ease of transport and installation.
- Protective padding also available.

For installers, the backboard is adjustable, allowing flexibility of installation while saving you time and effort. Just attach the extension arms at the appropriate height.

These are tested and certified for the Education QLD State Schools Basketball Specifications and Australian Design Standards.
