

ESSENTIALS NETBALL HEIGHT ADJUSTABLE

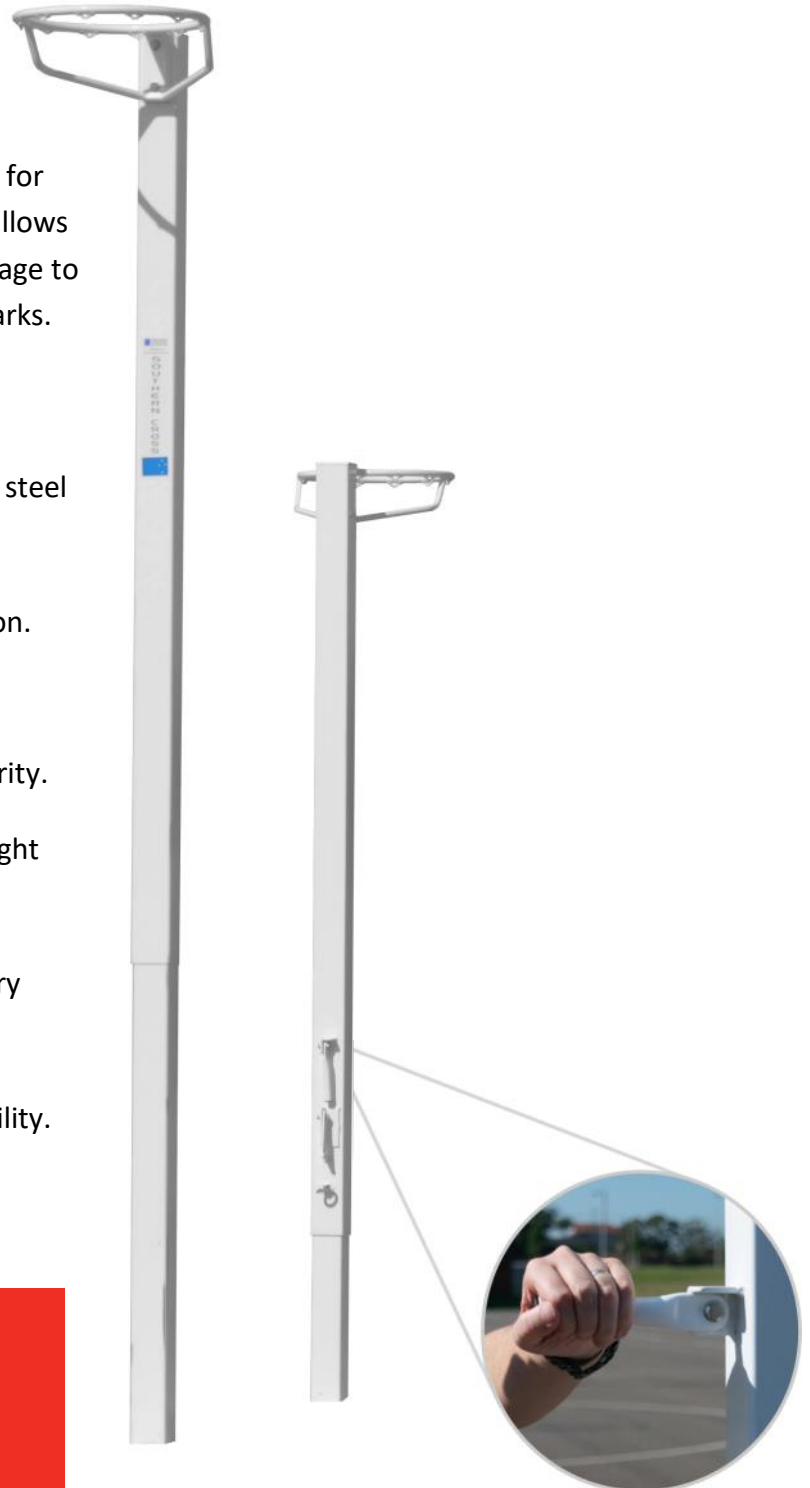

The NBESH is a durable non rust telescopic height adjustable netball system designed and tested for heavy duty use in public parks.

The innovative design makes it easily adjustable for senior (Netball) and junior (Netta) heights, but allows the user to lock at senior height to prevent damage to rings on systems left at junior height in public parks.

With features including:

- Heavy duty goal ring made from 18mm solid steel and 16mm support braces.
- Retractable handle for easy and safe operation.
- Tensioning device to limit post wobble.
- Lockable height setting for vandal proof security.
- Custom aluminium top extrusion for lightweight raising and lowering.
- Internal post height designed to prevent injury from goal fall if dropped when raising height.
- Galvanised steel base for strength and durability.

Post padding also available.
